Ratings Based Handicapping system podcast

The roadshows around Victoria to discuss the upcoming national Ratings Based Handicapping System have been completed and Harness Racing Victoria (HRV) wishes to thank all who attended.

HRV in conjunction with Harness Racing Australia (HRA) conducted four roadshows across the state to explain the system and answer questions in Shepparton, Ballarat, Cranbourne and Mildura in recent weeks.

After listening to feedback from industry participants who weren't able to make one of the sessions, HRV recorded [this podcast](#) featuring host Jason Bonnington interviewing HRA's Cam Brown and HRV General Manager – Racing Steve Bell explaining the new system.
